

XG Series

Pure Glass Multi-Touch System

A gorgeous see through display. An all-glass design. Even more touch control. It's our most luxurious touch screen system yet, and the ultimate WOW factor.

With a seamless bezel-free design, an entirely glass body, and a 39" see through touch display supporting 10 simultaneously touch points, the XG is unlike anything you've ever seen. This unique combination of function and elegance makes the XG perfect for impressing clients in almost any scenario, from DJ booths, to clubs, hotel lobbies, museums, stage presentations, mall kiosks, gaming events, and much more.

Xceed Expectations

A truly breathtaking display proven to attract and engage clients. Fitted with the most interactive software for your specified use. The XG will create the shock and awe your brand deserves.

The XG system arrives ready to entertain. Every system comes PC-ready for easy installation and use of your preferred programs. For the most luxurious display, all components are conveniently stored inside the unit, avoiding cable clutter. The display is brighter than any other touch screen system for more visual attraction and legibility. It's guaranteed to command attention in virtually any environment.
